MINISTRY OF CORPORATE AFFAIRS
GOVERNMENT OF INDIA

NATIONAL CONFERENCE
on
CORPORATE DATA MANAGEMENT AND GOVERNANCE

JANUARY, 2018

Indian Institute of Corporate Affairs
Partners in Knowledge, Governance, Transformation
Indian Institute of Corporate Affairs (IICA)

IICA, an autonomous institute, works under the aegis of the Ministry of Corporate Affairs to deliver opportunities for research, education, and advocacy. It acts as a think tank that curates a repository of data and knowledge for policy makers, regulators as well as Corporate India.

Set up as premier organisation for cutting edge intellectual leadership in corporate regulation, governance and running sustainable businesses, IICA propels knowledge and training through its network of Schools, Centres and National Foundation for Corporate Social Responsibility (NFCSR).

Corporate Data Management Project (CDM)

Corporate Data Management (CDM), the Data Warehousing & Business Intelligence (DWBI) Project of Ministry of Corporate Affairs (MCA), Government of India was envisaged as a Plan Scheme in the year 2015-2016. Ministry of Corporate Affairs has been quite ahead in implementing e-governance system and has been running MCA21 project since year 2006 which has created a large electronic repository of corporate sector information of the country which needed a forward linkage to explore the potential of data mining and implementing business analytics and intelligence system in-house. Hence, the CDM project was envisioned to create a data mining and analytics facility with the objective of disseminating corporate sector data in a structured manner.

The broad objects of scheme are as under:

- Disseminate shareable information in processed form, for use by stakeholders;
- Generate Customized Statistical Reports using Business Intelligence (BI) and Analytical tools for use by government departments for Policy making and Regulatory purposes;
- Setting up of a Business Intelligence, Data Mining & Analytics unit in the Ministry
- Institutional Capacity Building on Business Intelligence, Data Mining & Analytics;
- Development and implementation of Compliance Monitoring System for improved regulation and monitoring of companies
- Conceptualization and implementation of intelligence grid for data exchange with other regulators
IICA – CDM Conference

The Indian Institute of Corporate Affairs (IICA) has been engaged to provide support in institutional capacity building within the Ministry by way of organizing trainings, workshops, seminar, conferences, etc.

As part of the project, a conference was envisaged to showcase the progress of the Corporate Data Management Project and to deliberate on corporate data management and governance. The conference is being organised by School of Corporate Governance and Public Policy, IICA and facilitated by Project Management Unit, CDM Project to understand release and to consider the importance of data analysis and its usage. The Conference will include showcase of business intelligence tool developed under CDM, presentation of research papers and panel discussions.

CALL FOR PAPERS

Main Theme: Corporate Data Management and Governance

The conference aims to act as a platform for policy makers, regulators, professionals, academic researchers and industry experts for the exchange of thoughts around the objective associated with the CDM Project. Research papers, thought papers, research reports are invited for presentation and discussion at the conference. They may address the objective of the CDM project and have been grouped in the following broad themes –
